

- 1 4. This change is necessary because Plaintiff has undergone an extensive Heart Ablation on  
2 September 20, 2022 at Stanford Hospital and is disabled by this procedure being required  
3 to rest for 7 -10 days which is interfering with her time to work on preparing her  
4 Oppositions to the Defendant's Motion to Dismiss and Motion to Strike. Additionally,  
5 Plaintiff recently had her right hip replaced and continues to have multiple physical  
6 therapy appointments. She continues to be limited to the amount of time she can work on  
7 the computer, therefore Plaintiff needs additional time to submit the oppositions such that  
8 she can work on them daily for a short periods of time after having recovered from heart  
9 Ablation. Plaintiff is a seventy year old woman and as such is taking more time to fully  
10 recuperate to the point of being able to spend the time to complete her two Oppositions.  
11 Additionally, Plaintiff is relying on the San Francisco Pro Bono attorneys to assist her.  
12 Their time is limited to a half an hour at a time and difficult to schedule.
- 13 5. Plaintiff believes changing this deadline will not affect any other deadlines.
- 14 6. Plaintiff believes that she will need no further extensions of time.
- 15 7. The opposing side has not agreed based on the court's previous order.
